A: This is the **Key of your Individuality** or Higher Soul. This is the entity that incarnates again and again during the course of your long evolution. This is the essential You. We should use this Key as our meditational focus to develop our perceptions of our true Self. It will help us to understand our unique expression of Deity.

B: The is the **Key of Personality**. The Personality is the combination of vehicles that comprise the lower mind. It is the non-physical vehicle for this particular incarnation. This Key may be worked with to perfect the mental, emotional and physical vehicles to become more perfect expressions of your Individuality.

C: Problem Key: All of life's challenges and difficulties are based upon mental cause. This cause is a lack of unfoldment in a particular aspect of consciousness. This is the root of all other difficulties and prevents us from adjusting ourselves to the conditions of our environment and achieving the goal of perfect expression of the Cosmic Will for this incarnation. Once this Key is known it may be used to evoke and unfold the mental qualities connected with it. As this development occurs, we awaken the ability to solve our root problem and associated minor problems and achieve the purpose of this incarnation.

D: Solution Key: This Key indicates the kind of consciousness which you need to develop in order to understand your root problem. Meditation upon this Key will stimulate into activity those mental qualities which will enable you to better understand the purpose of the incarnation and the root problem, etc.

E: The Key of the Way: This Key deals with the phase of consciousness through which the mental activity indicated by your Solution Key may be applied to understanding the underlying mental causes of your life problem, as indicated by your Problem Key. Meditation upon this Key will evoke those forms of conscious energy that will enable you to apply your solution to your problem.

F: The Key of Will: This Key, also referred to as the Key of Integration, is meant to help us to direct the intricacies of our consciousness so that we may view them as an integrated unit. It enables us to combine the various units of our consciousness so that they may express as a balanced whole.
